Purpose

This policy defines the manner in which the case managers, care Coordinators and contracted providers of Community Health Plan of Washington (CHPW) will inform CHPW members of their right to implement Advance Directives and Physician Orders for Life Sustaining Treatment (POLST) documents.

Policy

CHPW case managers, care coordinators and contracted providers will provide information to members who express an interest in developing and maintaining a Medical and/or Mental Health Advance Directive or a Physician Order for Life-Sustaining Treatment (POLST) document.

As part of the care management process of assessment, care planning, and ongoing care coordination with members, CHPW case management staff will include an evaluation of the member's existing Advance Directives and POLST, if available. If not available, they will provide education and resources to the member should they be interested in developing one.

CHPW will provide a copy of the Advance Directives policies and procedures and education upon request by providers, members, and/or the Healthcare Authority representatives.

Definitions

ADVANCE DIRECTIVE: - An Advanced Directive is a written document in which the principal makes a declaration of instructions or preferences regarding his or her medical and mental health

treatment. The principal may also appoint an agent to make these decisions on his or her behalf. If the member wishes to appoint an agent to make decisions for them should they become incapacitated, a Durable Power of Attorney must be completed.

An advance directive provides written instructions about a member's future medical care in the event that the member is unable to express his or her medical wishes. In the State of Washington, this written instruction is in the form of two documents: A **Health Care Directive** (also known as a Living Will) and a **Durable Power of Attorney for Health Care**.

A **Mental Health Advance Directive** provides instructions and/or appoints an agent to make decisions on behalf of the member if they become incapacitated by mental illness and are unable to communicate effectively.

An **Advance Directive** places the member's choices for health care into writing and tells the doctor and family what kind of health care they do or do not want if they:

- Have lost consciousness
- Can no longer make health care decisions
- Cannot tell their doctor or family what kind of care they want
- Wish to donate their organ(s) after death
- Want someone else to decide about their healthcare if they cannot

There are three types of Advance Directives in use within Washington State:

1. Durable Power of Attorney for Health Care. This names another person to make medical decisions if the member is incapacitated and unable to make decisions for themselves.
2. Healthcare Directive (living will). This written statement tells people whether the member wants treatment to prolong their life.
3. Organ donation request.

If the member wishes to appoint an agent to make decisions for them, a Durable Power of Attorney must be completed. Beginning January 1, 2017, all Durable Power of Attorney for Health Care documents must either be witnessed by two individuals or be notarized. Powers of attorney executed prior to January 1, 2017 will remain valid.

Copies of completed advance directives should be maintained as part of the physician's clinical records.

AGENT - An Agent is a person to whom authority is given to make decisions on behalf of the member.

MEMBER- A member is an adult who has executed a Medical and/or Mental Health Advance Directive or POLST.

PHYSICIAN ORDERS FOR LIFE-SUSTAINING TREATMENT (POLST): The Physician Orders for Life Sustaining Treatment (POLST) is a form that gives seriously ill patients more control over their end-of-life care, including medical treatment, extraordinary measure (such as a ventilator or feeding tube) and CPR.

The members physician can use the POLST form to represent the members wishes as clear and specific medical orders. Members should be encouraged to contact their doctor to learn more. Forms are available at the physician’s office or by contacting [Washington State Medical Association POLST resources](#).

Copies of completed POLST documents should be maintained as part of the physician’s clinical records.

PRINCIPAL - A Principal is any individual who has capacity and who gives another individual the legal authority to act on their behalf.

Appendix A: Example of a Physician’s Order for Life Sustaining Treatment (POLST) Form

HIPAA PERMITS DISCLOSURE OF POLST TO OTHER HEALTH CARE PROVIDERS AS NECESSARY

Physician Orders for Life-Sustaining Treatment (POLST)

Last Name - First Name - Middle Name or Initial _____
 Date of Birth _____ Last 4 #SSN (optional) _____

FIRST follow these orders, **THEN** contact physician, nurse practitioner or PA-C. The POLST is a set of medical orders intended to guide medical treatment based on a person's current medical condition and goals. Any section not completed implies full treatment for that section. Completing a POLST form is always voluntary. Everyone shall be treated with dignity and respect.

Medical Conditions/Patient Goals: _____ Agency Info/Sticker _____

A CARDIOPULMONARY RESUSCITATION (CPR): person has no pulse and is not breathing.
 Check One Attempt Resuscitation/CPR When not in cardiopulmonary arrest, go to part B.
 Do Not Attempt Resuscitation/DNAR (Allow Natural Death)
 Choosing DNAR will include appropriate comfort measures.

B MEDICAL INTERVENTIONS: person has pulse and/or is breathing.
 Check One FULL TREATMENT - primary goal of prolonging life by all medically effective means.
 Includes care described below. Use intubation, advanced airway interventions, mechanical ventilation and cardioversion as indicated. Transfer to hospital if indicated. Avoid intensive care.
 SELECTIVE TREATMENT - goal of treating conditions while avoiding burdensome measures.
 Includes care described below. Use medical interventions, oxygen and cardiac monitor as indicated. Do not intubate. May use less invasive airway support (e.g. CPAP). Transfer to hospital if indicated. Avoid intensive care if possible.
 COMFORT-FOCUSED TREATMENT - primary goal of relieving suffering and maximizing comfort.
 Relieve pain and suffering with medication by any route. Use oxygen, oral suction and manual treatment of airway obstruction as needed for comfort. Patient preference is paramount. Transfer: EMS consider contacting medical control to determine if transport is indicated to provide adequate comfort.
 Additional Orders: (e.g. dialysis, etc.) _____

C SIGNATURES: The signatures below verify that these orders are consistent with the patient's medical condition, known preferences and best known information. If signed by a surrogate, the patient must be decisionally incapacitated and the person signing is the legal surrogate.

Discussed with: <input type="checkbox"/> Patient <input type="checkbox"/> Parent of Minor <input type="checkbox"/> Guardian with Health Care Authority <input type="checkbox"/> Spouse/Other as authorized by RCW 7.70.065 <input type="checkbox"/> Health Care Agent (DPOAHC)	PRINT — Physician/ARNP/PA-C Name	Phone Number
	<input checked="" type="checkbox"/> Physician/ARNP/PA-C Signature (mandatory)	Date (mandatory)
PRINT — Patient or Legal Surrogate Name		Phone Number
<input checked="" type="checkbox"/> Patient or Legal Surrogate Signature (mandatory)		Date (mandatory)

Person has: Health Care Directive (living will) Durable Power of Attorney for Health Care

Encourage all advance care planning documents to accompany POLST

SEND ORIGINAL FORM WITH PERSON WHENEVER TRANSFERRED OR DISCHARGED

Revised 8/2017 Photocopies and faxes of signed POLST forms are legal and valid. May make copies for records.

HIPAA PERMITS DISCLOSURE OF POLST TO OTHER HEALTH CARE PROVIDERS AS NECESSARY

Patient and Additional Contact Information (if any)

Patient Name (last, first, middle)	Date of Birth	Phone Number
Name of Guardian, Surrogate or other Contact Person	Relationship	Phone Number

D NON-EMERGENCY MEDICAL TREATMENT PREFERENCES

ANTIBIOTICS:

Use antibiotics for prolongation of life.
 Do not use antibiotics except when needed for symptom management.

MEDICALLY ASSISTED NUTRITION:
Always offer food and liquids by mouth if feasible. Trial period of medically assisted nutrition by tube. (Goal: _____)
 No medically assisted nutrition by tube. Long-term medically assisted nutrition by tube.

ADDITIONAL ORDERS: (e.g. dialysis, blood products, implanted cardiac devices, etc. Attach additional orders if necessary.)

<input checked="" type="checkbox"/> Physician/ARNP/PA-C Signature	Date
<input checked="" type="checkbox"/> Patient or Legal Surrogate Signature	Date

DIRECTIONS FOR HEALTH CARE PROFESSIONALS

Completing POLST

- Completing a POLST form is always voluntary.
- Treatment choices documented on this form should be the result of shared decision-making by an individual or their surrogate and medical provider based on the person's preferences and medical condition.
- POLST must be signed by a physician/ARNP/PA-C and patient, or their surrogate, to be valid. Verbal orders are acceptable with follow-up signature by physician/ARNP/PA-C in accordance with facility/community policy.

Using POLST

Any incomplete section of POLST implies full treatment for that section.
This POLST is valid in all care settings including hospitals until replaced by new physician's orders.
The POLST is a set of medical orders. The most recent POLST replaces all previous orders.
The POLST does not replace an advance directive. An advance directive is encouraged for all competent adults regardless of their health status. An advance directive allows a person to document in detail his/her future health care instructions and/or name a surrogate decision maker to speak on his/her behalf. When available, all documents should be reviewed to ensure consistency, and the forms updated appropriately to resolve any conflicts.

NOTE: A person with capacity may always consent to or refuse medical care or interventions, regardless of information represented on any document, including this one.

SECTIONS A AND B:

- No defibrillator should be used on a person who has chosen "Do Not Attempt Resuscitation."
- When comfort cannot be achieved in the current setting, the person should be transferred to a setting able to provide comfort (e.g., treatment of a hip fracture).
- An IV medication to enhance comfort may be appropriate for a person who has chosen "Comfort-Focused Treatment."
- Treatment of dehydration is a measure which may prolong life. A person who desires IV fluids should indicate "Selective" or "Full Treatment."

SECTION D:

- Oral fluids and nutrition must always be offered if medically feasible.

Reviewing POLST

This POLST should be reviewed periodically whenever:

- The person is transferred from one care setting or care level to another, or
- There is a substantial change in the person's health status, or
- The person's treatment preferences change.

To void this form, draw line through "Physician Orders" and write "VOID" in large letters. Any changes require a new POLST.

Review of this POLST Form

Review Date	Reviewer	Location of Review	Review Outcome
			<input type="checkbox"/> No Change <input type="checkbox"/> Form Voided <input type="checkbox"/> New form completed
			<input type="checkbox"/> No Change <input type="checkbox"/> Form Voided <input type="checkbox"/> New form completed

SEND ORIGINAL FORM WITH PERSON WHENEVER TRANSFERRED OR DISCHARGED

Photocopies and faxes of signed POLST forms are legal and valid. May make copies for records. For more information on POLST visit www.wsma.org/polst.
