Policy No:	PM561	Last Approval:	02/23/2022
Policy Title:	Reporting Requirements for Medicare Part D Policy		
Approved By:	CMO Cabinet		
Dependencies:	N/A		

Purpose

This policy ensures Community Health Plan of Washington (CHPW) correctly and timely submits Centers for Medicare and Medicaid Services (CMS) required Part D reports in reporting timeframes as stated in CMS Medicare Part D Reporting Requirements.

Policy

The following reports listed below are mandated by CMS for the timely and accurate submission as described in CMS Medicare Part D Reporting Requirements. CHPW will at all times adhere to the current plan year reporting requirements as outlined in Appendix A to this policy. This policy will be reviewed at least annually to ensure compliance with current CMS requirements for Part D Reporting.

CHPW will ensure that designated employees review the accuracy and completeness of data contained in the relevant reports prior to submission to CMS. Any identified errors will be corrected prior to submission. This table can also be found in the CMS HPMS system.

Additional Oversight

CHPW is required to report data to CMS on a variety of measures. CMS has developed reporting standards and data validation specifications with respect to the Part D reporting requirements. These standards and specifications provide a review process for Medicare Advantage Organizations (MAOs), Cost Plans, and Part D sponsors to use to conduct data validation checks on their reported Part C and Part D data. The data validation is “retrospective,” referring to the fact that it normally occurs in the year subsequent to the measurement year. For example, the data validation for CY 2013 data was conducted in CY 2012. In order to ensure the independence of the data validation, CHPW does not use its own staff to conduct the data validation. Instead, CHPW acquires external data validation resources. For further details on these submissions, see Desk Procedure *DP 142 – Annual Medicare Data Validation Audit*. In addition, any ESI contact data submitted in the HPMS portal will be tested prior to submission.

Additional Auditing

CHPW is required to respond to CMS approved auditors for reporting and auditing outside of the recurring reports mentioned above. Examples of additional audits include PDE analysis, PDE financial review, coverage determination review, and formulary admin reviews. When necessary, CMS provides submission guidance through annual audit protocols or through the Acumen portal. Per CMS guidance, 42 CFR Section 423.505, the plan must make available any books, contracts, records, and documentation that pertain to any aspect of services performed, reconciliation of benefit liabilities, and determination of “amounts payable under the contract, or as the Secretary may deem necessary to enforce the contract...”.
